

VastuZenTM Curing Diseased and Unlucky Homes and Offices

“How To Attract More Health, Wealth,
And Love into Your Life
by Making Simple Changes in Your Home and Office”

**VASTU AND FENG SHUI
SECRETS
THEY DON'T WANT YOU TO KNOW**

by **Dr. Amit Jain**
The Alchemist, Spiritual Psychologist
and Wellness MD

About the Author

Dr Amit Jain, Spiritual Psychologist, Wellness MD and Alchemist has been meditating, practicing yoga, studying psychology, holistic health, energy healing, motivational and peak performance techniques, since he was twenty, from the day he left CA (Certified Public Accountancy course). In spite of having graduated in Commerce from one of the finest colleges of Asia, SRCC and being a qualified management accountant (AICWA), he chose to follow his heart.

For over fourteen years he has researched and studied Yogic and Gnostic Psychology, Eastern and Western Energy Healing, Yogic sciences, Prana Vidya, Sidha Vidya, and spiritual practices from teachers around the world, including India, Tibet, Mexico, Brazil, Spain, China and the Philippines.

He studied Psychology, Meditation, Yoga, Anthropology and other esoteric subjects under CEG, guided by **VM Samael Aun Weor**. For his Teacher's course in Spiritual Psychology, he lived in a remote Monastery near Montserrat Mountains in Spain for 3 months.

He personally studied Arhatic Yoga, Feng Shui and Pranic Healing with **Grand Master Choa Kok Sui**, who is an internationally known expert, best selling author and teacher. Dr. Amit Jain is a Certified Yoga Vidya Pranic Healing teacher.

He studied Alternative Medicine from IBAM, a Private University for 5 years to get his Doctorate in Alternative Medicine.

He is also the inventor of the powerful "**Life Card**", a truly effective Health|Wealth|Luck Charm and "**Chakra Healing Tool**", a powerful tool for healers. He is the author of "**The Long Lost Hidden Anti-Aging Secret of The Fountain of Youth**", "**World's 1st Sex Ed Manual For Parents**" and "**VastuZen**". His forthcoming work is "**Zen Kamasutra**", the Yoga of Love, Health and Long Life.

Dr. Amit Jain is currently the Director of **Center for Enlightened Living**. He helps people unlock their Inner Energy for a Coherent life and is driven to make this world a better place.

TABLE OF CONTENTS

1. First things first - Myths about Feng Shui
2. Main signifiers which affect the wealth, health, harmony and luck potential of a house or office by 70%
3. The most important factor affecting the energies of your whole house or workplace
4. Important Considerations regarding the Main Door
5. The Slope of the floor
6. The location of different Rooms in the House
7. A Very Important Consideration regarding Your Health, Prosperity and Success
8. The 8 Aspirations in Feng Shui
9. How to fill any missing area or strengthen a weak area
10. 2 important principles in Feng Shui
11. Energizing different Areas-Aspirations in your Home/Office

17. SW-South-West Love/Marriage/Relationships/Partnerships
18. W- West Children/Creativity
19. NW-North-West Helpful People/Mentors/Travel

**"How Unseen Energies In Your Home And Office
Play Havoc With Your Personal
And Professional Life - Affecting
Your Health, HarMoney And Happiness!"**

Energies are all around us.

Look around you. You are surrounded with Energy – Cosmic Energy, Solar Energy, Electro-magnetic Waves from Electric Poles and Electric Appliances, Cell phones and Towers, Microwaves, Lasers, X-rays, geo-magnetic energies, Natural light, artificial lights, sound, color etc..

Einstein proved $E=MC^2$. That proved that energy affects matter. Thus we can conclude beyond doubt that these energies affect us and our living spaces profoundly.

When these energies are harmonious and balanced they affect us positively, when they are unbalanced they affect us and our lives negatively.

The ancient art and science of Vastu in India and Feng Shui in China when applied properly bring this balance and harmony back to our living spaces – our homes and offices and to our lives.

The Difference between Living in a House with a Positive Vastu and a House with a Negative Vastu is just Simply This....

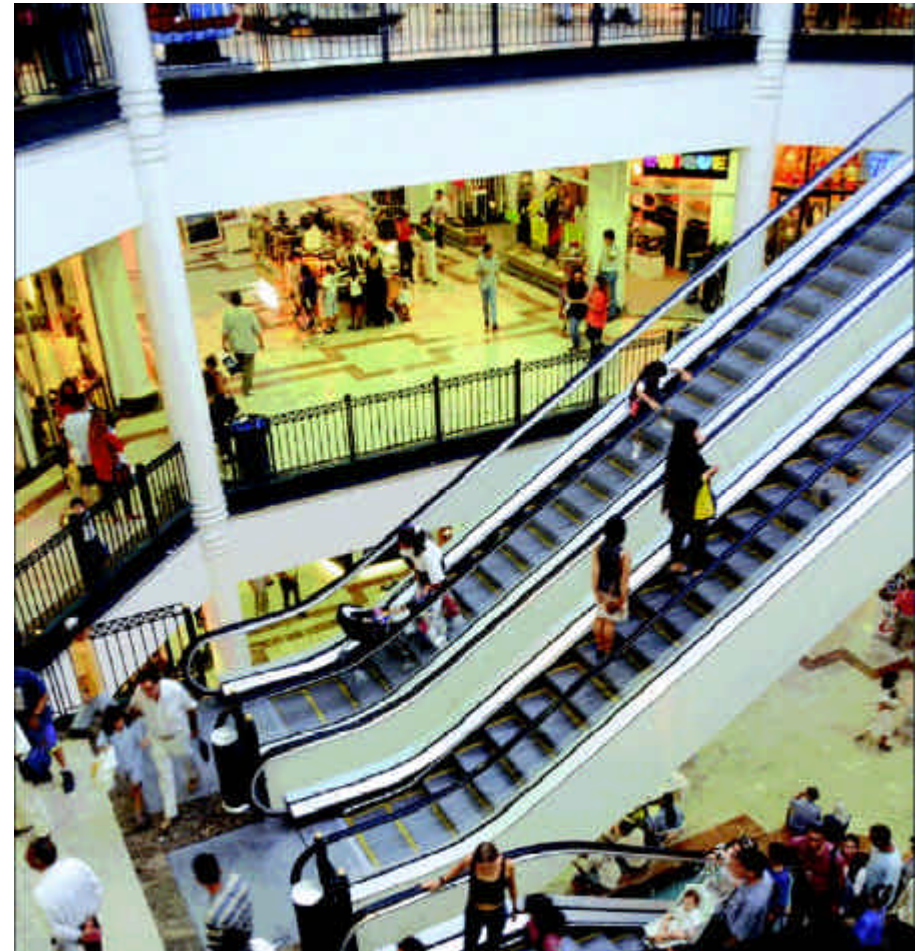

In the first, The Residents are Cruising along on an Escalator which is going up. Whereas, in the Second, the Residents are trying to go up on an Escalator which is going down.

Same applies to Workplaces – Shops and Offices.

So in simple terms, the difference is in being Lucky or having to work hard even for small things in life.

This FREE Ebook is for those who Wish to make their lives easier and Open the doors of Luck and Fortune in their Lives....

But beware of those experts which try to position Feng Shui as a panacea for all ills. There are other factors of success also. Feng Shui is one of the factors.

First things First

Our ancestors wisely said that half-knowledge is more harmful and dangerous than having no knowledge at all about a subject.

The aim of this ebook is to give a complete and true picture of this subject as possible, in a simple and concise way. This ebook has been purposely kept short, as we are already stressed and short of time. To read a lengthy and complex book makes the subject more tough to understand.

There are so many Myths and misconceptions about Vastu and Feng Shui that without First Clearing this Mist, You won't be able to see the Truth ~

Myth: Keeping a Laughing Buddha or 3-legged Frog in My Home/Office will change my fortunes!

As in a Meal - there is a Main Course, there is Soup and Side dishes and there is Sweet Dish. Now, we can have a meal without a soup. We can also have a meal without the Side dish. We can also have a Meal without a Sweet Dish. But a Meal without the Main Course wont fill our stomach.

Similarly while looking at the Vastu of a place – there is the main layout of the place which is the main signicator of the energies of that place – the Main Course. And then there are the placing of the objects within the main layout of that place which is like the sweet dish, soup and side dishes.

There are certain things which affect the Vastu of a place profoundly and certain things which affect only secondarily.

But most of the time 95% of us lay too much emphasis on the secondary factors which affect the harmony, wealth, health and luck potential of the place and its habitants by only 30%.

While overlooking the Main 70% affectors.

Let's take a look at the Main signifiers which affect the wealth, health, harmony and luck potential of a house or office by 70% :

In feng shui, the house is symbolic of the person. The Main Door is the mouth, the rooms on either side of the main door are the lungs, the center is the heart, the back door is the anus, the roof is the head, the windows are the eyes, and so forth.

It is a fact that Sun only rises in the East. And, the orientation of the natural magnetism of the poles of our planet is aligned North-south. What it signifies is that both these natural factors affect the geo-magnetic vibes of a place.

Indian ancient wisdom tells us that all the directions are governed by different deities, each having its own nature, role and significance.

- E - East** is governed by – **Lord Indra**, the King of the Gods
- N - North** is governed by – **Kubera**, the Treasurer of the Gods
- W- West** is governed by – **Varuna**, the Rain God
- S - South** is governed by – **Yama**, the Executioner

- NE - North-East** is governed by – **Soma**, the Elixir of Life
- SE - South-East** is governed by – **Agni**, the Fire God
- NW- North-West** is governed by – **Vayu**, the Wind God
- SW- South-West** is governed by – **Nirtti**, the God of demons

Now, this is the most important factor affecting the energies of your whole house or workplace, so pay attention here:

- **Your Front Door**, the one which is the most used for coming in or going out of the house is the Mouth of your house. Naturally and logically your house eats from its mouth. As we need food and energy to survive, a house also needs energy too. And what it eats depends on which direction it faces. We can move around, but unfortunately a house cannot. And so it can only take energy from the direction its mouth faces.

- Out of the 8 directions, 3 are governed by the Regents of strong Elements: **NW – Air, SE – Fire and W – Water**. If your house faces them, you will have some of the values of these elements but along with that the harshness of these elements also.

- 2 directions are governed by Furious Deities: **S – Lord Yama and SW – Lord of Demons**. Of course, you don't want to face their music by facing them.

- The remaining 3 directions are governed by Favorable deities whose favors we all seek: **E – Lord Indra, the King himself, N – Kubera, the Keeper of the Heavenly Fortunes and NE – Elixir of Life**. Now, who would want to turn their back on these deities and be bereft of their benevolent energies!

- **Conclusion** : To invite Prosperous, Healthy and Benevolent energies into your lives, Your Front Door must face either of these 3 directions – **E, N or NE**.

Now if You are born lucky and Your Home and Office Front Door faces E, N or NE, you may skip this page.
But if Your Home and Office Front Door do not face these directions - then by all means
if it is practically feasible, even at the cost of relocating your Main Door,
make it face any of these 3 directions E, N or NE.

Now, what if it is not practically feasible to relocate your Main Door? And you are continuously facing
the fury of either of the 3 elements Or the music of either of the 2 ferocious deities! Hmm..

➤ If Your Front Door faces **SouthEast** or **NorthWest** then you are in a catch twenty situation
where you have some benefits and some disadvantages.
[Pasting one LIFE CARD* on the inside wall facing your Main Door to attract only
Positive and Prosperous Energies and deflect back the furious energies will correct this defect]

➤ If Your Front Door faces **West, South or SouthWest** then there are 2 things
You should do to correct this Vastu defect in your Home or Office:

1. Place a Convex Mirror also called the Pregnant Mirror directly facing your Front Door on the inside wall facing your Main Door. Paste a LIFE CARD* on the upper side of the Mirror. This will block the Furious Energies coming from these directions inside your home or office.
2. Place Concave Mirrors on the South and West walls just 2-3 feet below the ceiling. The Mirrors should be angularly tilted downwards approx. 30 degrees. The exact location of the Mirrors where they have to be placed on the South and West Walls is the South-North axis of the house for the South Wall position and the West-East axis of the house for the West wall position. Paste a LIFE CARD* on the lower side of each Mirror. This will attract Prosperous and Healthy positive Energies from the East and North and due to the angular tilt of the Mirrors keep them flowing throughout your home or office.

* To know more about the LIFE CARD or/and the PROSPERITY ATTRACTOR CARD simply go to
<http://www.FengShui2.org/InstantPowerChip.htm>

Some Other Important Considerations regarding the Main Door:

1. Do not put anything directly in front of your Main Door – neither inside nor outside. The flow of energies into your home or office would be blocked. This would amount to obstacles in your life. Even plants placed just outside or inside the Front Door will hamper the free flow of energies. If we open the door everyday and there is a wall or tree right in front of it, we are constantly confronting an obstruction. Generally speaking, this blockage can create a mental stagnation inducing things in our life occur likewise. In metaphor, it is hard to take in energy when something is blocking your mouth. Whether or not we are aware of this, it affects our subconscious and instinctual mind.
2. In some places, this is a widespread practice of keeping your dustbin in front or side of your Front Door. This is Hara-kiri. Do not dirty the energies that are entering your house. It is like keeping the dustbin in front of your mouth.
3. Your Nameplate either at your home or office should be placed at a height more than that of the tallest person in your home or office.
4. You may place a Ganesha (the Indian God with an Elephant head) statue or wall-hanging on the inside wall facing your Main Door. A LIFE CARD* would be the most auspicious welcome sign for the Good and Prosperous Energies and a very powerful Protection against Negative Energies.
5. A small Bell on the outside of the Front Door is considered auspicious. So is 3 old Chinese Coins, with a square hole in the centre tied with a Red ribbon, hanged on the inside handle of the Main Door.
6. A 3-legged Frog with a Chinese Coin in its mouth, sitting over a lot of Gold coins is considered auspicious if placed at the entrance of your house facing inside, as if the frog has just entered your house.
7. So is a miniature Ship loaded with artificial treasure, if placed inside in the front lobby or room, as if it has just entered into the house.

8. Similarly, a painting of running horses on a wall in the front lobby or room in a direction that it looks as if the horses are entering in the home or office.
9. Never place any sharp object pointing towards your Front Door on the inside wall facing the Main Door.
10. Check that nothing sharp is pointing towards your Main Door from the outside. Even an electric pole in front of the Main Door can act as an obstruction.

After the Main Door, the Next Important Consideration regarding the Vastu of a place is the Slope of the floor:

1. The Floor should slope towards East or North.
2. If it is sloping towards South or West [Or if there is a boring/tube-well/under-ground tank in S, W, SW or SE] then it can be corrected by placing Concave Mirror on the South or West walls, just 2-3 feet below the ceiling. The Mirror should be angularly tilted downwards approx. 30 degrees. The exact location of the Mirror where they have to be placed on the South or West Walls is the South-North axis of the house for the South Wall position and the West-East axis of the house for the West wall position. Paste a LIFE CARD* on the lower side of the Mirror.

The Next Important Consideration regarding the Vastu of a place is the location of different Rooms in the House. Let's look at the Ideal locations:

- **Master Bedroom – South-West**
- **Other Bedrooms – South and/or West**
- **Guest Room – North-West**
- **Drawing Room/Living Room – North-West**
- **Kitchen – South-East**
- **Meditation/Puja/Prayer Room – North-East**
- **Study – East**
- **Toilets/Bathrooms – North-West and/or South-East**
- **Store Room – South**
- **Staircase – South, South-West or West**
- **Open Spaces/Terraces – East, North, North-East and the Center**

Bedroom

- If Your Bedroom is in South-West or South. That's great.
 - Children's Bedroom is good in the West.
 - But South-West should not be left open or vacant.
- If you have your children's bedroom in South-West then they will dominate the house.
- If your bedroom is in the South-East you will have constant fights, heartburns and/or high blood pressure.
 - If your bedroom is in North-East you will have the least importance or influence in the house.
- If your bedroom is in the North-West you will be unsettled, wavering, ungrounded and/or have mood swings.
 - The bed should always be placed in the South-West side of the room.
- Now this might be shocking to a lot of Vastu pundits but this report is to break the myths not support the wrong popular beliefs. So here it is...* The correct sleep position is North-South or East-West. Your head being in either North or East and legs in South or West. The popular belief says that you should never have your head in the North and their reason for this belief is that the Earth's North-South axis Magnetic radiation benefits you when your head is in the South. Now, this is totally wrong. The Magneto-therapists clearly state that the best position to sleep is North-South with your head in the North to get the health benefits of the natural North-South Magnetic vibes.

- Open beams in any room are always bad for the health. Never place your bed near or under an open beam. Do not sit under a beam. Many times people just invite trouble when they extend rooms and that results in a heavy open beam in the room. Whosoever has to spend time there will be disturbed health wise, the children there would not be able to concentrate on their studies. In the center of the room it creates too much disharmony. Best solution is to not have any open beam. If not possible, then the next best solution is to paste 2 LIFE CARDS* parallel and opposite to each other on the walls just under the beam.
- A TV in the bedroom will always produce disturbing energies which will affect your sleep at night. Neither is it good for harmony between the couple. But if still you insist on having a TV in your bedroom, paste a LIFE CARD* anywhere on the front panel of your TV. And cover it with a thick cloth/cover at night.
- A mirror placed at any angle in the bedroom, if it reflects the bed is considered bad for your health as per Feng Shui. If you cannot remove the mirror from your bedroom, cover the mirror with a thick cloth/cover whenever you sleep .
 - Plants and Deities photos in the bedroom is a no-no.
 - Candles or fire place in the southern side of the bedroom is good.
- For correcting any problem regarding the bedroom, a simple option is to always keep a LIFE CARD* with you and your spouse [Place the card under you while sleeping].

Other Rooms

- Drawing Room is best in North-West or East.
- If Your Drawing Room or Guest Room is in the South-West or South, then the guests will dominate you.
- The Center of the house should always be open or vacant. If it is heavy, paste 2 LIFE CARDS* parallel to each other on the opposite walls covering the center of the house.
- The servant's room should not be in the South-West or South. Otherwise, they will dominate the house.
- The East, North and North-East should be light and open. If any side is heavy, paste 2 LIFE CARDS* parallel to each other on the opposite walls covering that part of the house.
 - The South-West, South and West should be heavy.

Toilets/Bathrooms

- Toilets are best placed in North-West and South-East. Never have a toilet under a stair-case.
- If Your Toilet is in the South-West or North-East then that is not good for your health or wealth. For SW toilet, you may paste pyramids on the door and the outer walls of the toilet. For NE toilet cover the door and the outer walls of the toilet with mirrors. Or for both, you can simply correct the defect by pasting one LIFE CARD* on the outer walls of the toilets.
- If your toilet is in the North, it will block your income, prosperity and/or business projects. Cover the door and the outer walls of the toilet with mirrors. Or correct it by pasting a LIFE CARD* on the outer wall of the toilet.
 - Mirror inside the toilet and bathroom should ideally be placed on the Eastern or Northern wall.
- The toilet seat lid should always be closed after use. The toilet door should always be shut. The toilet should be always kept clean.

Kitchen

- Kitchen is best placed in South-East.
- If Your Kitchen is in the South-West or North-East, then that is not good for your health and harmony. For both, you can correct by pasting a LIFE CARD* on the inner wall of the kitchen on the South-West or North-East wall respectively.
- If your Kitchen is in the North, then it is not good for your prosperity. Correct it by pasting a PROSPERITY ATTRACTOR CARD or a LIFE CARD* on the inner wall of the kitchen on the North wall.
- If your Kitchen is in the North-West, then it is considered to be putting a Fire at the Heaven's gate in Feng Shui. It is considered extremely inauspicious. Correct it by pasting a LIFE CARD* on the inner wall of the kitchen on the North or North-West wall.
- The Stove is very important in Feng Shui and it is believed that a Prosperity Deva/Angel resides in the stove of the house. So if any sharp object like knife is left open in the kitchen with the sharp blade facing the stove, it is considered to be showing a knife to the Prosperity Deva/Angel of the house. So there should be nothing hanging over the stove. The knives and sharp objects should be kept away from the stove. The stove should be kept as clean as possible.
 - The stove should ideally be placed in the South-East side of the Kitchen.
- The sink and the stove should never be side by side as it is like putting water and fire, both opposing elements together. Correct this by pasting a LIFE CARD* on the side of the stove facing the sink.
 - The cook should face East, North or North-East while cooking.

**A Very Important Consideration regarding Your Health, Prosperity and Success:
The direction you face while sitting in your office, while studying or the direction
you face the most while sitting doing anything at home.**

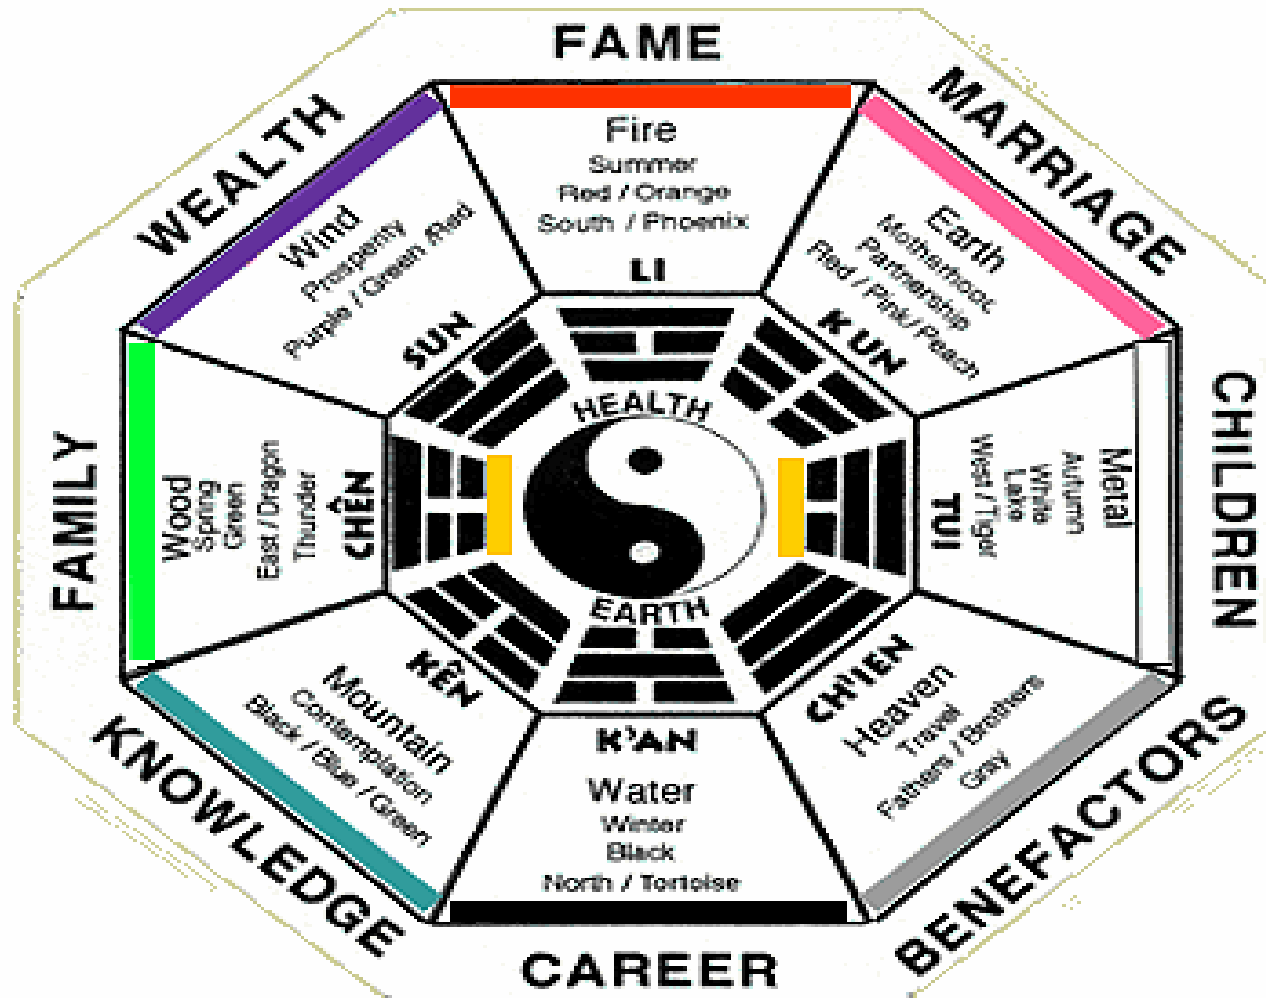

- Always face East, North or North-East.
- Never face a wall while sitting. If the study table of your child has a bookcase atop it, just cut off the bookcase. It's a heavy burden over your child's mind. Children will do much better at school if they face East while studying.
 - Do not sit with your back to the door or a window. It results in back-biting and/or back-stabbing as per Feng Shui.
- As per Feng Shui, the place behind you is the domain of the Tortoise symbolizing a solid back. Which means there should be a solid wall behind your chair.
 - The area in front is the domain of the Phoenix symbolizing spreading your wings and moving forward. For which there should be enough open space in front of your desk.
 - The area to your left is the domain of the Dragon symbolizing the upward thrust. For which ideally you can place a plant or have a little open space to the left of your desk.
 - The area to your right is the domain of the Tiger symbolizing the guard, the protection. For which ideally you can place a small enclosure or a low table to the right of your desk.

The 8 Aspirations in Feng Shui

As per Directional Feng Shui school, the 8 cardinal directions have been assigned the 8 important life aspirations or areas of human life. They are :

- N – North** - Career/Business/Life Purpose
- NE-North-East** - Knowledge/Wisdom/Self-Cultivation/Spirituality
- E – East** - Family/Heritage/Health/Growth
- SE-South-East** - Wealth/Abundance/Prosperity/Finance
- S - South** - Fame/Reputation/Acknowledgement
- SW-South-West** - Love/Marriage/Relationships/Partnerships
- W- West** - Children/Creativity
- NW-North-West** - Helpful People/Mentors/Travel
- CENTER** - Health/Harmony/Well Being

We will just see in a minute how we can use this information to solve our teething problems and enhance these life areas.

A simple way to find the different areas in your house/office is to print the Bagua given above and place it over your house/office/room layout matching the directions. And mark out the Aspirations on your house/office/room layout.

**Now lets see how we put this knowledge/wisdom to improve our life
and to fill any missing area or strengthen a weak area :**

First of all, be clear which area of your life needs your attention right now. Or in other words, what is the most painful thorn in your life right now.

It can be poor Health, Love/Marriage or relationships issues, Career/Business problems, Scarcity/Financial problems, Lack of acknowledgement for your labor, children/creativity issues, lack of mentors or network, family trouble, etc.

Match your problem with the particular Aspiration. It might involve more than one Aspiration. For example, if your business is in trouble because of lack of financial support. So in that case, you will work on both the aspirations.

Next look in the Bagua which direction that aspiration falls in your home, your office, your bedroom and your living room/drawing room.

For example, in our previous example, we have to look for Wealth and Career aspirations which will fall on SE and N directions respectively. So we will work on these two directions in our home, our office, our bedroom, our room in the office and our living room/drawing room.

Understand that Feng Shui works on the energy level and because of that it works on the Macro level i.e., the house and also the Micro level which will be for the house, the rooms.

And also that Feng Shui works on the mental level through the Symbols. The Symbols impact our subconscious mind, they invoke memories from our past and stimulate our present experiences.

The art and science of symbolism plays an important role in Feng Shui.

Feng Shui works with 2 important principles:

To change the results you are getting in any area of your life, you have to change the vibration of the corresponding area shown in the bagua in your home and office.

Changing the vibration of an area involves a 2 step process -

- **Cleansing** ~ Cleansing the area ~ Removing the clutter
- **Energizing** ~ Energizing the area ~ Adding symbols/cures

First cleansing the area of old vibrations represented by clutter, the things no longer in use or those that are not needed now. Without this cleansing, putting symbols won't be so effective. Whereas, even just cleansing is sometimes very powerful in changing the vibrations of that area.

Missing/Truncated Areas in your Home/Office:

If some area of your office or home is missing as happens so many times in case of flats, then usually you will find that particular aspect/aspiration of your life to be unfulfilled or weak.

This can be corrected by pasting a LIFE CARD* on the inner wall which cuts off that area. For N-Career and SE-Wealth areas, a Prosperity Attractor Card will also cure this defect.

You can enhance and energize the respective areas of your bed-room, drawing/living room and main office, which are missing from your home/office to further strengthen those areas of your life.

Let us see how you can energize the different areas of your home and office:

To energize any area of your home/office, you have to consider 2 things.

=> First, the **symbols** related to the aspiration of that area

=> Secondly, **the element** according to the 5 element concept of the Chinese which energizes that area. The Chinese believe that the universe came into being from the five primordial elements. The Five Elements are Metal, Water, Wood, Fire, Earth. There are two basic relationships which you need to understand:

1. The Productive Cycle

- Metal produces Water
- Water produces Wood
- Wood produces Fire
- Fire produces Earth
- Earth produces Metal

2. The Destructive Cycle

- Metal destroys Wood
- Wood destroys Earth
- Earth destroys Water
- Water destroys Fire
- Fire destroys Metal

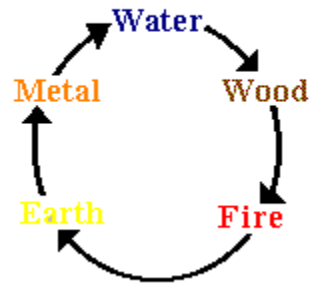

Aspiration	Area	Element	Destructed by	Supported by	Colours
Career	N	Water	Earth	Metal	Blue, Grey, Black
Knowledge	NE	Earth	Wood	Fire	Yellow, Earth hues
Family/ Health	E	Big Wood	Metal	Water	Green, Blue
Wealth	SE	Small Wood	Metal	Water	Green, Brown
Fame	S	Fire	Water	Wood	Red
Marriage	SW	Big Earth	Wood	Fire	Yellow, Earth hues
Children	W	Small Metal	Fire	Earth	White, Metallic
Mentors	NW	Big Metal	Fire	Earth	White, Metallic

So the trick is, to place the symbols related to the aspiration made of the element related to that area and direction or of the element which supports that element, in the color related to that area. E.g., for enhancing your Career, you may put a Tortoise which is the symbol for Career success, made of metal in the North of your home and office. The colors of the supporting element can also be used. To activate water element in the North you may put a small fountain or water fall painting.

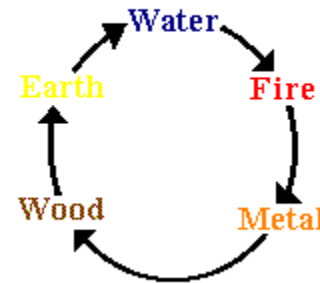

Do not overdo things. Balance is essential in Feng Shui. So if you would put a large fountain in your North, it may symbolically drown you. And one more thing, do not put a fountain or water fall painting in your bedroom as its vibration will disturb your sleep.

Here is another table showing how you can energize each element :

Productive Sequence

Destructive Sequence

Element	Energize with
Water	Fabrics in blue, grey, black leather and blue paintings e.g. sea scenes and waterfalls, small fountains, aquariums
Earth	Pottery, clay items or yellow fabrics or yellow paints and painting
Wood	Plants, wooden furniture and wooden objects.
Fire	More warm colors, light and heating
Metal	Metallic objects like chrome, stainless steel, decorative bronze and silver and any other metal objects.

Let us see some specific symbols used in Feng Shui to energize the different areas of your home and office apart from the use and balance of elements:

I. N – North Career/Business/Life Purpose

- As mentioned earlier a metal Tortoise is a very auspicious symbol in the north. You can place a photo of Goddess Lakshmi (Indian Goddess of Wealth) here.
- Any water feature, a small fountain, a waterfall or even a painting of a waterfall is good
- Any metal decorative item related to your profession would do your career good
 - You can keep a gold or silver colored metal coin box in the north. You may place common change or silver coins in this box.

II. NE – North East Knowledge/Wisdom/Self-Cultivation/Spirituality

- Crystals activate the Earth element and are good for NE. A crystal or glass chandelier is a very effective energizer for this area.
 - Pottery or clay items are also very good for this area.
- A photo of Goddess Saraswati (Indian Goddess of Wisdom) would do wonders for enhancing wisdom.
 - You can also support the earth element with fire element. Lights and lamps can be put here.

III. E – East

Family/Heritage/Health/Growth

- Healthy growing plants lush with green are the best to activate the Wood element in the East area.
Living plants are best, but artificial ones will also do.
- You can also activate the water element by placing a ceramic turtle here in a water bowl.
Turtle is a symbol of longevity.
- You can place happy looking family photographs framed in wooden frames in this corner.
 - Do not keep live plants in your bedroom though.

IV. SE-South-East

Wealth/Abundance/Prosperity/Finance

- Healthy growing plants lush with green are the best to activate the Wood element in the South-East area.
Living plants are best, but artificial ones will also do.
- Even an artificial fruit tray brimming with fruits placed in the South-east corner of your living room and/or kitchen symbolizes wealth.
- Again a water feature here is good feng shui like an aquarium with gold fish or a small fountain.
But do not overdo things.
- Any prosperity symbol which signifies prosperity to you like fake gold bars, wooden framed Goddess Lakshmi etc., make excellent symbols for this area.

V. S - South **Fame/Reputation/Acknowledgement**

- A fire place in the south is excellent for activating the fire element.
- Red color objects, lights, wooden objects, wooden framed photo of yours getting some award or recognition, your awards, framed certificates, lamps are all good for this area.
- Phoenix is the symbolic animal for this area. And as such a framed photograph of Phoenix or peacock, or rooster is good. Peacock feathers are also good to activate the phoenix.

VI. SW-South-West **Love/Marriage/Relationships/Partnerships**

- Crystals activate the Earth element and are good for SW. A crystal or glass chandelier is a very effective energizer for this area.
 - Pottery or clay items are also very good for this area.
- You can also support the earth element with fire element. Lights and lamps can be put here.
- A photograph of you together in a happy mood in red color frame would be excellent for this area. Only you two should be there in the photo.
 - Lovebirds, swans facing each other, ducks in clay are all good energizers for this area.

VII. W- West

Children/Creativity

- To activate the metal element in this area, decorative metal objects in the west. TV, computer, music system and electrical appliances all belong to metal element.
 - Metal trophies, bells are good for this area.
- Photographs of your children in metal frames are good to be kept in this area.
- For those expecting a child or wanting to have a child, hang a photo of a beautiful and healthy child in metal frame in the west.

VIII. NW-North-West

Helpful People/Mentors/Travel

- To activate the metal element in this area, decorative metal objects in the west. TV, computer, music system and electrical appliances all belong to metal element.
 - Metal or ceramic bells are good for this area. So are horse shoe magnets.
 - Metal wind-chimes with hollow rods are excellent for this area. Stone or ceramic wind-chimes can also be used.
- Ceramic or clay three-legged frog sitting on Gold coins is also good for this area.
 - Place the photo of your Guru/Mentor in the North West.

Energizing different Areas-Aspirations in your Home/Office:

Apart from the above mentioned ways to energize the different area-aspirations in your home/office, there is another powerful way of super energizing the missing aspirations in your life.

To energize any aspiration of your life which is weak, you can place a LIFE CARD* in the respective direction/area of your home and office as per the Bagua. Just go to that area of your home/office for a few minutes every day. Concentrate on the LIFE CARD* and ask for what you are seeking.

This is a very powerful way of energizing that aspiration in your life, because LIFE CARD* would heal the problems you are having in that area of your life and it would help you to fulfill your aspirations from that area of your life.

E.g. if you are having a relationship problem, put a LIFE CARD* in the SW area of your home or bedroom. Then for a few minutes every day sit in the SW area of your home/bedroom and ask for resolution of the relationship problem and visualize that relationship to be full of love and peace.

For N and SE, you can also put a Prosperity Attractor Card instead of the LIFE CARD*.

* To know more about the LIFE CARD or/and the PROSPERITY ATTRACTOR CARD simply go to <http://www.FengShui2.org/InstantPowerChip.htm>

**To conclude, as per the ancient Chinese wisdom,
a person has 3 Lucks which affect his/her life :**

1. **Heaven Luck:** Luck that is given to him/her. Your destiny determined by the day, time and place of birth.
2. **Earth Luck (home and surroundings):** The luck from your house and surroundings. The Vastu and Feng Shui of the place we live in and work from.
3. **Human Luck (character):** This refers to the personal characteristics of a person's character and deeds such as honesty, kindness, helpfulness, charitable, hard work, forgiveness, religious and other positive traits.

So the heaven luck is just the 33.33% which we bring in, but the rest 66.67% is in your hands.
Why not use the information given in this book and improve your life today...
